

ALL SAINTS C OF E PRIMARY SCHOOL NEWTON HEATH MANCHESTER

E-Safety Policy

Updated February 2017

Mission Statement

Through Christian teaching, we aim to develop an inclusive learning community, where through strong relationships the achievements of all are celebrated.

Development / Monitoring / Review of this Policy

This e-safety policy has been developed by the e-Safety Committee made up of:

- Mrs L. Tennant (Headteacher)
- Mr S. Keogh (Deputy Headteacher)
- Mr J. Sharp (Deputy Headteacher)
- Mr J Tennant (Computing Lead & E-Safety Coordinator)
- Mr N. Milligan (IT Technical Manager)
- Mrs K. Conway (Pastoral Care Manager)
- Rev A. Wickens (Child Protection / Safeguarding Governor)

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for Development / Monitoring / Review

This e-safety policy was approved by the Board of Directors / Governing Body / Governors Sub Committee on:	7 th February 2017
The implementation of this e-safety policy will be monitored by the:	e-Safety Committee
Monitoring will take place at regular intervals:	Annually
Governing Body / Governors Sub Committee will receive a report on the implementation of the e-safety policy generated by the monitoring group (which will include anonymous details of e-safety incidents) at regular intervals:	Annually
The E-Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be:	February 2018
Should serious e-safety incidents take place, the following external persons / agencies should be informed:	Local Authority Safeguarding Team, Police & CEOP

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited)
- Internal monitoring data for network activity
- Surveys / questionnaires of
 - students / pupils

- parents / carers
- staff

Scope of the Policy

This policy applies to all members of the school community (including staff, students / pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

Integrating E-Safety into the curriculum

E-Safety is at the forefront of our computing curriculum. In each topic that children cover they will be taught to think about the consequences of their actions when using technology to solve problems. Teachers understand the importance of keeping children safe online and will plan opportunities for discussion within lessons. E-Safety will also be taught through PSHE and assemblies, where children will be made aware of the dangers of the internet. E-Safety specific lessons will be taught annually during Anti-Bullying Week & Safer Internet Day. For further details please see the Computing Policy.

Roles and Responsibilities

The following section outlines the e-safety roles and responsibilities of individuals and groups within the school:

Governors:

Governors are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors / Sub Committee receiving regular information about e-safety incidents and monitoring reports. A member of the Governing Body has taken on the role of E-Safety Governor. The role of the E-Safety Governor will include:

- regular meetings with the E-Safety Co-ordinator
- regular monitoring of e-safety incident logs
- regular monitoring of filtering / change control logs
- reporting to relevant Governors / committee

Headteacher and Senior Leaders:

- The Headteacher has a duty of care for ensuring the safety (including e-safety) of members of the school community, though the day to day responsibility for e-safety will be delegated to the E-Safety Co-ordinator
- The Headteacher and (at least) another member of the Senior Leadership Team / Senior Management Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff. (see flow chart on dealing with e-safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority HR / other relevant body disciplinary procedures).
- The Headteacher / Senior Leaders are responsible for ensuring that the E-Safety Coordinator / Officer and other relevant staff receive suitable training to enable them to carry out their e-safety roles and to train other colleagues, as relevant.
- The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The Senior Leadership Team / Senior Management Team will receive regular monitoring reports from the E-Safety Co-ordinator

E-Safety Coordinator:

- leads the e-safety committee
- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school e-safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of e-safety incidents and creates a log of incidents to inform future e-safety developments
- meets regularly with E-Safety Governor to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of Governors
- reports regularly to Senior Leadership Team

Network Manager / Technical staff:

The Network Manager / Technical Staff / Co-ordinator for ICT / Computing is responsible for ensuring:

- that the school’s technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required e-safety technical requirements and any Local Authority / other relevant body E-Safety Policy / Guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person

- that they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the network / internet / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher / E-Safety Coordinator / Pastoral care Manager for investigation / action / sanction
- that monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff

are responsible for ensuring that:

- they understand the use of functions such as 'Guided Access' on iOS devices to manage pupil use
- they have an up to date awareness of e-safety matters and of the current school e-safety policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to the Headteacher / E-Safety Coordinator / Pastoral care Manager for investigation / action / sanction
- all digital communications with students / pupils / parents / carers should be on a professional level and only carried out using official school systems
- e-safety issues are highlighted across the curriculum and other activities
- pupils understand and follow the e-safety and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Child Protection / Safeguarding Designated Person / Officer

should be trained in e-safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials (including links to radicalisation and extremism)
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

E-Safety Group

The E-Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding e-safety and the monitoring the e-safety policy including the impact of initiatives. Depending on the size or structure of the school this committee may be part of the safeguarding group. The group will also be responsible for regular reporting to the Governing Body.

Members of the E-safety Group (or other relevant group) will assist the E-Safety Coordinator (or other relevant person, as above) with:

- the production / review / monitoring of the school e-safety policy / documents.
- the production / review / monitoring of the school filtering policy (if the school chooses to have one) and requests for filtering changes.

- mapping and reviewing the e-safety curricular provision – ensuring relevance, breadth and progression
- monitoring network / internet / incident logs
- consulting stakeholders – including parents / carers and the students / pupils about the e-safety provision
- Digital Leaders to be selected to promote internet safety

Pupils:

- are responsible for using the school digital technology systems in accordance with the Pupil Acceptable Use Policy
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the school's 's E-Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national / local e-safety campaigns / literature. Parents and carers will be encouraged to support the school in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- we encourage video / photos but not to be posted online
- access to parents' sections of the website and on-line pupil records
- their children's personal devices in the school (where this is allowed)

Community Users

At present the wider community does not access school systems.

Policy Statements

Education – pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in e-safety is therefore an essential part of the school's e-safety provision. Children and young people need the help and support of the school to recognise and avoid e-safety risks and build their resilience.

E-safety should be a focus in all areas of the curriculum and staff should reinforce e-safety messages across the curriculum. The e-safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned e-safety curriculum should be provided as part of Computing / PSHE / other lessons and should be regularly revisited
- Key e-safety messages should be reinforced as part of a planned programme of assemblies and pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit. (Including Radicalisation & Extremism)
- It is accepted that from time to time, for good educational reasons, pupils may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – parents / carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, Twitter & Facebook Page
- Parents / Carers evenings / sessions
- High profile events / campaigns eg Safer Internet Day

- Reference to the relevant web sites / publications eg
www.swgfl.org.uk
www.saferinternet.org.uk/
www.childnet.com/parents-and-carers (see appendix for further links / resources)

Education – The Wider Community

The school will provide opportunities for local community groups / members of the community to gain from the school's e-safety knowledge and experience. This may be offered through the following:

- E-Safety messages targeted towards grandparents and other relatives as well as parents.
- The school website will provide e-safety information for the wider community
- Offer advice to community groups eg Early Years Settings, Childminders, youth / sports / voluntary groups to enhance their e-safety provision, recommend using: -
www.onlinecompass.org.uk

Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal e-safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the e-safety training needs of all staff will be carried out regularly. It is expected that some staff will identify e-safety as a training need within the appraisal process.
- All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements.
- The E-Safety Coordinator will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This E-Safety policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days.
- The E-Safety Coordinator will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in e-safety training / awareness sessions, with particular importance for those who are members of any sub committee / group involved in technology / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users (at KS2 and above) will be provided with a username and secure password by Mr Milligan who will keep an up to date record of users and their usernames. Users are responsible for the security of their username and password and will be required to change their password every new school year.
- The “master / administrator” passwords for the school ICT system, used by the Network Manager (or other person) must also be available to the Headteacher or other nominated senior leader and kept in a secure place (eg Evernote- Shared between NM & JS)
- Computing **Technical Manager** is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes
- The school has provided enhanced / differentiated user-level filtering. At present the whole school uses one level of filtering for all staff & pupils. This will be upgraded in Autumn 2016 with a more levels of filtering to be in place.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- An appropriate system is in place in CPOMS for users to report any actual / potential technical incident / security breach to the relevant person, as agreed.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software. Avast Business Security.
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place regarding the extent of personal use that users (staff / students / pupils / community users) and their family members are allowed on school devices that may be used out of school.
- An agreed policy is in place that allows staff to / forbids staff from downloading executable files and installing programmes on school devices.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.
- In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other students / pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Students / pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website
- Pupil's work can only be published with the permission of the pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

Please refer to Data Protection Policy (January 2016)

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

Communication Technologies	Staff & other adults			Pupils				
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Mobile phones may be brought to school	✓					✓		
Use of mobile phones in lessons		✓	✓					✓
Use of mobile phones in social time	✓							✓
Taking photos on mobile phones / cameras		✓						✓
Use of other mobile devices eg tablets, gaming devices	✓					✓		
Use of personal email addresses in school, or on school network	✓							✓
Use of school email for personal emails		✓						✓
Use of messaging apps		✓						✓
Use of social media	✓							✓
Use of blogs	✓					✓		

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems.
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on

official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.

- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school email addresses for educational use. **Pupil Email will not be able to be used to send to any other domains other than allsaintsnh-pri.manchester.sch.uk. Pupil email accounts will be monitored by the IT Technician Manager.**
- Pupils should be taught about e-safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

The school recognises that many staff will actively use *Facebook*, *Twitter* and other such: social networking, blogging and messaging services, including supporting their own professional development by developing personal learning networks with other educational practitioners.

Staff must recognise that it is not appropriate to discuss issues relating to children or other staff via these networks – discretion and professional conduct is essential. They are encouraged to review their privacy settings to make sure that their profiles and photographs are not viewable by the general public.

Staff must be made aware that it is never acceptable to accept a friendship request from a child from the school as in almost all cases children of primary age using such networks will be breaching the terms and conditions of use of those networks. It is also extremely inadvisable to accept as friend's ex-pupils who are still minors.

Staff should not give their personal contact details to pupils including e-mail, home or mobile telephone numbers. All correspondence should be via school systems.

- Our school uses the school website, Twitter and the school text messaging service to communicate with parents and carers. Only those authorised by the Headteacher are allowed to post or send messages on these technologies.
- Staff **are not** permitted to access their personal social media accounts using school equipment at any time during school hours.
- Pupils are not permitted to access their social media accounts whilst at school.
- Staff, governors, pupils, parents and carers are regularly provided with information on how to use social media responsibly and what to do if they are aware of inappropriate use by others.
- Staff, governors, pupils, parents and carers are aware that the information, comments, images and video they post online can be viewed by others, copied and stay online forever.
- Staff, governors, pupils, parents and carers are aware that their online behaviour should at all times be compatible with UK law.

The School Facebook Page is administered by our Technician Manager and only designated people have access and permission to post images and messages online.

Twitter Use in School

The aim of using Twitter is to quickly share and celebrate children's achievements, successes and school updates. It also allows teachers to demonstrate safe and responsible use of social media and encourages the use of 21st Century technology.

- The school Twitter accounts will be run from school devices by the Headteacher, Class Teachers & The IT Technician Manager.
- The school Twitter accounts will be public accounts. Senior Leaders and the ICT Co-ordinator will monitor the followers and block any who appear to not be school focused.
- The school Twitter accounts will only follow educationally link accounts. No personal accounts, unless they are educationally linked, will be followed. For example, a children's author.
- The school Twitter accounts will not reply to any 'replies' on Twitter. This is not the platform to discuss or debate school related issues.
- The school Twitter accounts will only use children's first names when referencing children's work (not images).
- The school Twitter accounts will use Twitter to share positive messages about the school.
- The accounts may be used to share news and information during a school trip. The account will be run by a senior teacher on a 3G/4G connected phone / device for the period of the trip. Photos taken on the phone for the purpose of sharing on Twitter will be deleted once they have been shared.
- The school will change the Twitter account passwords on a termly basis.
- Individually targeted content will not be posted e.g. "Well done Josh a better lesson today". Tweets to a year group or class along the lines of "don't forget the..." are acceptable. Although always think about the most effective way to communicate important information.
- Use of the @twittername of others is to be avoided. For example "excited about @dextnott speaking to us".
- By endorsing twitter, we may be encouraging children to use twitter so reinforce e-safety rules such as "Never tweet anything that would be potentially upsetting; make sure you know how to report to anything you find that disturbs you; be careful who you talk to they may not be all they appear; never meet anyone from twitter world without telling your parents" etc. Remind children they must be 13 years of age to use Twitter.
- Twitter's own safety rules can be read on: https://support.twitter.com/groups/33-report-abuse-or-policyviolations#topic_166

School Website

The Main School Website is currently hosted with SquareSpace. Our School IT Technician Manager has sole access to maintain the website in accordance with content agreed by the Headteacher. The access details are kept in a secure place and will be available for others to use if required.

Use of Cloud Services

At All Saints C of E Primary School we use the following Cloud Services as part of our teaching and learning, management of services and for storing all of our none critical personal data.

- Google for Education (http://www.google.com/apps/intl/en/terms/education_terms.html)

- Apple iCloud

Specific permission from parents is required for the pupils to use these services therefore an additional permission request is included on the acceptable use forms.

Unsuitable / inappropriate activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography				X	
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business					X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school					X	
Infringing copyright					X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)					X	
Creating or propagating computer viruses or other harmful files					X	

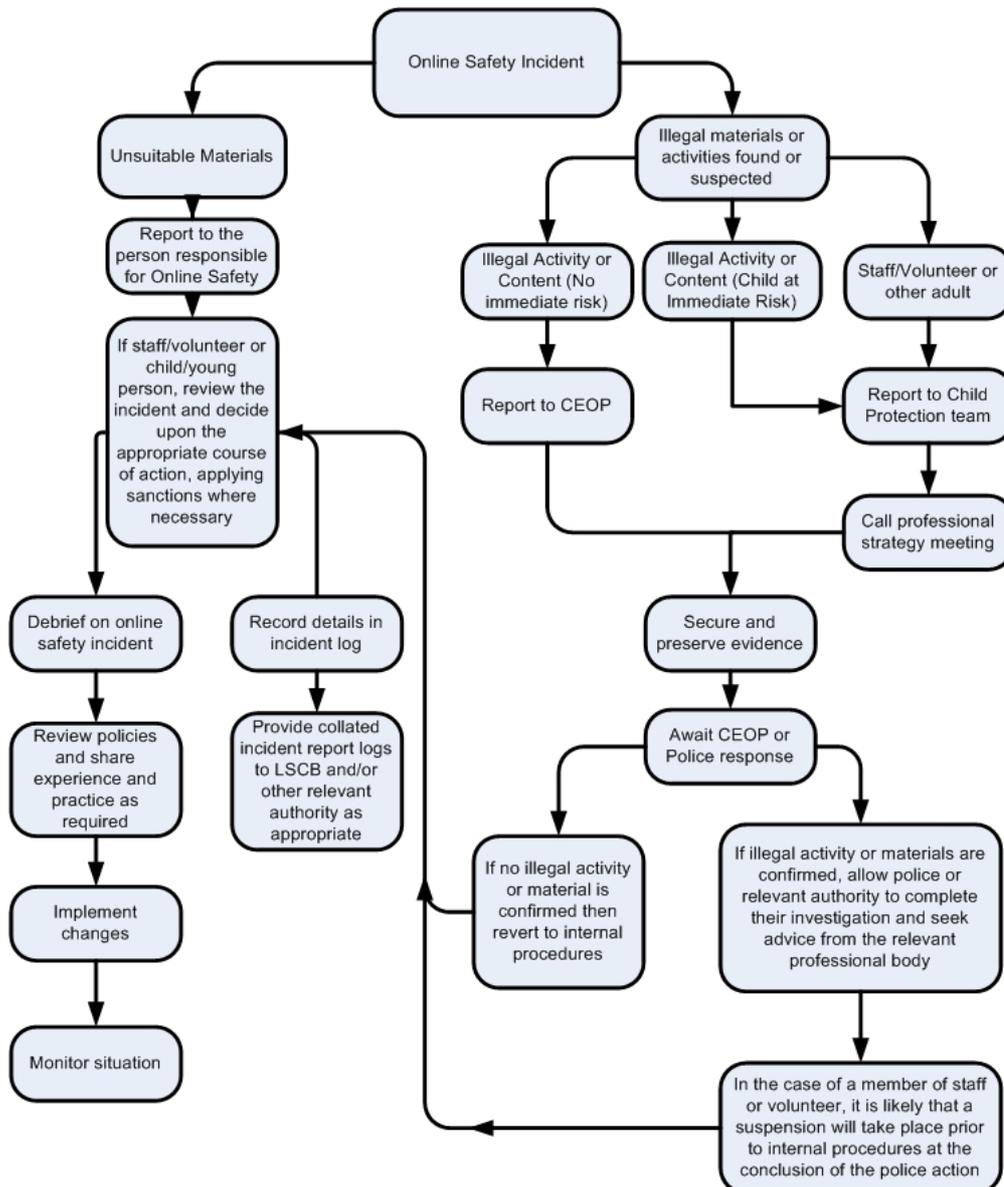

Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)		✓			
On-line gaming (non educational)		✓			
On-line gambling				X	
On-line shopping / commerce		✓			
File sharing	✓				
Use of social media			✓		
Use of messaging apps		✓			
Use of video broadcasting eg Youtube		✓			

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- If content being reviewed includes images of Child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Pupils

Actions / Sanctions

Incidents:	Refer to class teacher	Refer to Key Stage Leader	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering / security etc	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X	X		X	X		
Unauthorised use of non-educational sites during lessons	X	X						X

Pupil Acceptable Use Agreement – for older pupils

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users.

For my own personal safety:

- I understand that the school will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

Prevent Duty for Schools:

As part of All Saints C of E Primary School's ongoing safeguarding and child protection duties we are fully in support of the government's Prevent Strategy.

- I will not visit internet sites that contain or relate to radicalisation and / or violent extremism.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the school systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (eg YouTube), unless I have permission of a member of staff to do so.

I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:

- I will only use my own personal devices (mobile phones / USB devices etc) in school if I have permission).I understand that, if I do use my own devices in the school , I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include loss of access to the school network / internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Pupil Acceptable Use Agreement Form

This form relates to the pupil Acceptable Use Agreement, to which it is attached. Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school ICT systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) eg mobile phones, gaming devices USB devices, cameras etc
- I use my own equipment out of the school in a way that is related to me being a member of this school eg communicating with other members of the school, accessing school email, VLE, website etc.

Parent / Carers Name

Name of Student / Pupil

As the parent / carer of the above student / pupil, I give permission for my son / daughter to have access to the internet and to ICT systems at school.

Use of Digital / Video Images

The use of digital / video images plays an important part in learning activities. Pupils and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media,

The school will comply with the Data Protection Act and request parents / carers permission before taking images of members of the school. We will also ensure that when images are published that the young people can not be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.

Parents / carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents / carers to agree

Digital / Video Images Permission Form

Pupil Acceptable Use Policy Agreement – for younger pupils (Foundation / KS1)

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers
- I will only use activities that a teacher or suitable adult has told or allowed me to use.
- I will take care of the computer and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong.
- I will tell a teacher or suitable adult if I see something that upsets me on the screen.
- I know that if I break the rules I might not be allowed to use a computer.

Staff (and Volunteer) Acceptable Use Policy Agreement

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for pupils learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that students / pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email, etc) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school. (schools should amend this section in the light of their policies which relate to the personal use, by staff and volunteers, of school systems)
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.

- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school in accordance with the school's policies. (schools / academies should amend this section to take account of their policy on access to social networking and similar sites)
- I will only communicate with pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner. (schools should amend this section to take account of their policy on communications with pupils and parents / carers. Staff should be made aware of the risks attached to using their personal email addresses / mobile phones / social networking sites for such communications)
- I will not engage in any on-line activity that may compromise my professional responsibilities.

Prevent Duty for Schools:

As part of All Saints C of E Primary School's ongoing safeguarding and child protection duties we are fully in support of the government's Prevent Strategy.

- I will not visit internet sites that contain or relate to radicalisation and / or violent extremism.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school :

- When I use my mobile devices (iPads / laptops / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted , or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless it is a Free App from the Apple App Store using my school provided Apple ID and it is appropriate for use on a school device. If unsure please check with mr Milligan. Any Apps that require purchase must be requested through Mr Milligan so that they can be procured through the official Apple Volume Purchase Programme and deployed accordingly to each device that requires it.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School / LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school :

- I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include (schools / academies should amend this section to provide relevant sanctions as per their behaviour policies) a warning, a suspension, referral to Governors and / or the Local Authority and in the event of illegal activities the involvement of the police.

Use of Cloud Services

At All Saints C of E Primary School we use the following Cloud Services as part of our teaching and learning in school:

- Google for Education (http://www.google.com/apps/intl/en/terms/education_terms.html)
- Apple iCloud

These services are managed by All Saints C of E Primary School and both meet all requirements with regard to online data security.

- I agree to keep my Cloud services passwords safe and secure

Bring your own device / accessing cloud-based data at home:

By using your own personal device for work purposes (at school or at home) you agree to:

- Encrypt your device (iOS Devices a simple pass code does this for you)
- Use a strong password, which only you have access to.
- When using your own device, use your own separate user account which no one else has access to.
- Ensure that you have made all the appropriate measures to keep your device virus-free (Windows Laptop for example will need anti virus installing)
- Make sure devices are free from inappropriate content

School provides staff with devices for work, therefore the use of personal devices is at your own risk.

I will ensure that my devices is given to the IT Tecnician Manager to ensure it is setup for use on the school network and filtering is applied.

Any Device loss, theft, change of ownership must be reported to the IT Techncian Manager who also monitors the location of assets.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Acceptable Use Agreement for Community Users

This Acceptable Use Agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential risk in their use of these systems and devices

Prevent Duty for Schools:

As part of All Saints C of E Primary School's ongoing safeguarding and child protection duties we are fully in support of the government's Prevent Strategy.

- I will not visit internet sites that contain or relate to radicalisation and / or violent extremism.

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school

- I understand that my use of school systems and devices and digital communications will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and / or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this Acceptable Use Agreement, the school has the right to remove my access to school systems / devices

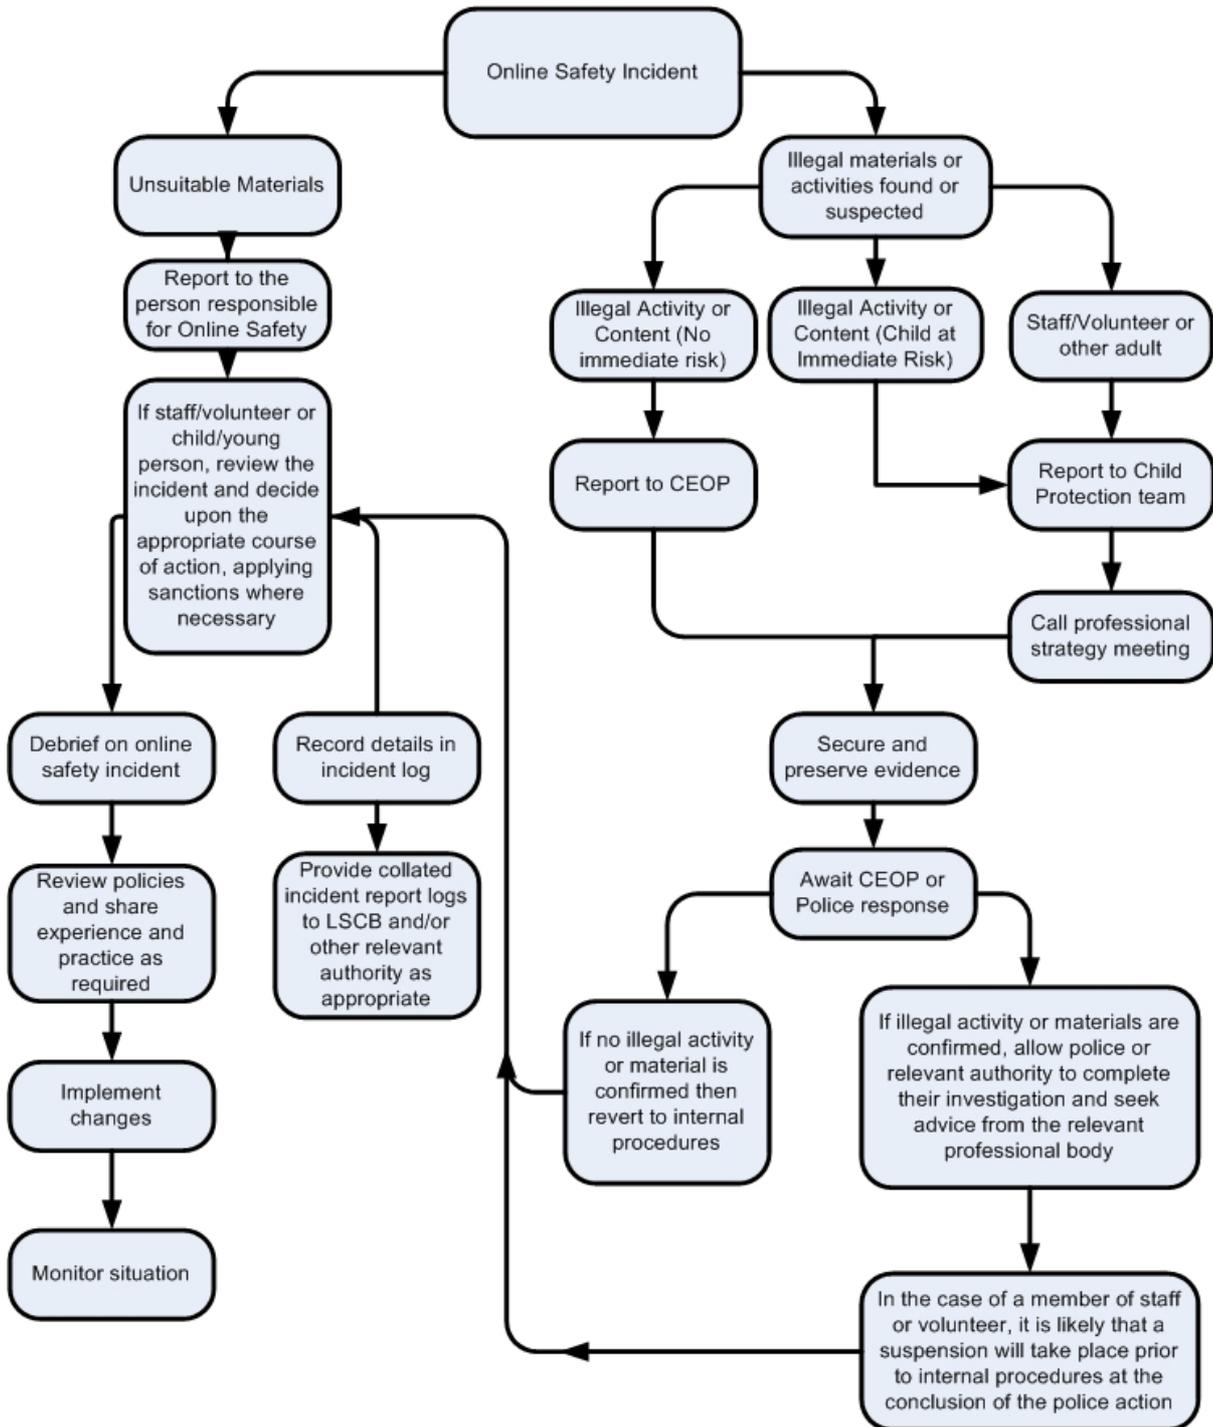

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Responding to incidents of misuse – flow chart

School Technical Security Policy (including filtering and passwords)

Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- no user should be able to access another's files (other than that allowed for monitoring purposes within the school's policies).
- access to personal data is securely controlled in line with the school's personal data policy
- logs are maintained of access by users and of their actions while users of the system
- there is effective guidance and training for users
- there are regular reviews and audits of the safety and security of school computer systems
- there is oversight from senior leaders and these have impact on policy and practice.

Responsibilities

The management of technical security will be the responsibility of Mr Milligan, Technician Manager.

Technical Security

Policy statements

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people will receive guidance and training and will be effective in carrying out their responsibilities:

- **School technical systems will be managed in ways that ensure that the school meets recommended technical requirements**
- **There will be regular reviews and audits of the safety and security of school academy technical systems**
- **Servers, wireless systems and cabling must be securely located and physical access restricted**
- **Appropriate security measures are in place to protect the servers, firewalls, switches, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data.**
- **Responsibilities for the management of technical security are clearly assigned to appropriate and well trained staff**
- **All users will have clearly defined access rights to school technical systems.** Details of the access rights available to groups of users will be recorded by the Network Manager / Technical Staff (or other person) and will be reviewed, at least annually, by the E-Safety Committee (or other group).

- Users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Mr Milligan is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Mobile device security and management procedures are in place.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- Remote management tools are used by staff to control workstations and view users activity
- An appropriate system is in for users to report any actual / potential technical incident to the E-Safety Coordinator / Network Manager / Technician (or other relevant person, as agreed).
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school system.
- An agreed policy is in place regarding the downloading of executable files and the installation of programmes on school devices by users.
- An agreed policy is in place regarding the extent of personal use that users (staff / students / pupils / community users) and their family members are allowed on school devices that may be used out of school.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices.
- The school infrastructure and individual workstations are protected by up to date software to protect against malicious threats from viruses, worms, trojans etc.
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Password Security

A safe and secure username / password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices & email.

Policy Statements

- All users will have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the Network Manager (or other person) and will be reviewed, at least annually, by the E-Safety Committee (or other group).
- **All school networks and systems will be protected by secure passwords that are regularly changed**
- **The “master / administrator” passwords for the school systems, used by the technical staff must also be available to the Headteacher / Principal or other nominated senior leader and kept in a secure place eg school safe. Consideration should also be given to using two factor authentication for such accounts.**
- Passwords for new users, and replacement passwords for existing users will be allocated by Mr Milligan. Any changes carried out must be notified to the manager of the password security policy (above).
- All users (adults and young people) will have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Users will change their passwords at regular intervals – as described in the staff and student / pupil sections below
- requests for password changes should be authenticated by (the responsible person) to ensure that the new password can only be passed to the genuine user (the school will need to decide how this can be managed – possibly by requests being authorised by a line manager for a request by a member of staff or by a member of staff for a request by a pupil)

Staff passwords:

- All staff users will be provided with a username and password by Mr Milligan who will keep an up to date record of users and their usernames.
- the password should be a minimum of 8 characters long and must include three of – uppercase character, lowercase character, number, special characters
- must not include proper names or any other personal information about the user that might be known by others
- temporary passwords e.g. used with new user accounts or when users have forgotten their passwords, shall be enforced to change immediately upon the next account log-on
- passwords shall not be displayed on screen, and shall be securely hashed (use of one-way encryption)
- passwords should be different for different accounts, to ensure that other systems are not put at risk if one is compromised and should be different for systems used inside and outside of school
- should be changed at least every 90 days
- should not re-used for 6 months and be significantly different from previous the last four passwords cannot be re-used passwords created by the same user.
- should be different for different accounts, to ensure that other systems are not put at risk if one is compromised
- should be different for systems used inside and outside of school

Student / pupil passwords

- **All users (at KS2 and above) will be provided with a username and password** by (insert name or title) who will keep an up to date record of users and their usernames.
- Users will be required to change their password every (insert period).
- Pupils will be taught the importance of password security
- The complexity (ie minimum standards) will be set with regards to the cognitive ability of the children.

Training / Awareness

Members of staff will be made aware of the school's password policy:

- at induction
- through the school's e-safety policy and password security policy
- through the Acceptable Use Agreement

Pupils will be made aware of the school's password policy:

- in lessons (the school should describe how this will take place)
- through the Acceptable Use Agreement

Audit / Monitoring / Reporting / Review

The responsible person Computing Technical Manager will ensure that full records are kept of:

- User Ids and requests for password changes
- User log-ons
- Security incidents related to this policy

Filtering

Introduction

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, because the content on the web changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is only one element in a larger strategy for e-safety and acceptable use. It is important that the school has a filtering policy to manage the associated risks and to provide preventative measures which are relevant to the situation in this school.

Responsibilities

The responsibility for the management of the school's filtering policy will be held by **Computing Technical Manager**. They will manage the school filtering, in line with this policy and will keep records / logs of changes and of breaches of the filtering systems.

To ensure that there is a system of checks and balances and to protect those responsible, changes to the school filtering service must

- **be logged in change control logs**
- **be reported to a second responsible person**
- either... be reported to and authorised by a second responsible person prior to changes being made
- or... be reported to a second responsible person every X weeks / months in the form of an audit of the change control logs
- be reported to the E-Safety Group every X weeks / months in the form of an audit of the change control logs

All users have a responsibility to report immediately to (insert title) any infringements of the school's filtering policy of which they become aware or any sites that are accessed, which they believe should have been filtered.

Users must not attempt to use any programmes or software that might allow them to bypass the filtering / security systems in place to prevent access to such materials.

Policy Statements

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and other illegal content lists. Filter content lists are regularly updated and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed internet access through the school network, filtering will be applied that is consistent with school practice.

- The school maintains and supports the managed filtering service provided by One Education Ltd.
- The school has provided enhanced / differentiated user-level filtering through the use of the **Smoothwall** filtering programme.

- In the event of the technical staff needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher (or other nominated senior leader).
- Mobile devices that access the school internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems
- Any filtering issues should be reported immediately to the filtering provider.
- Requests from staff for sites to be removed from the filtered list will be considered by Mr Milligan. If the request is agreed, this action will be recorded and logs of such actions shall be reviewed regularly by the E-Safety Group.

Education / Training / Awareness

Pupils will be made aware of the importance of filtering systems through the e-safety education programme. They will also be warned of the consequences of attempting to subvert the filtering system.

Staff users will be made aware of the filtering systems through:

- the Acceptable Use Agreement
- induction training
- staff meetings, briefings, Inset.

Parents will be informed of the school's filtering policy through the Acceptable Use Agreement and through e-safety awareness sessions / newsletter etc.

Changes to the Filtering System

Users who gain access to, or have knowledge of others being able to access, sites which they feel should be filtered (or unfiltered) should report this in the first instance to Mr Milligan who will decide whether to make school level changes (as above).

Please complete the online form here: <http://www.allsaintsnh-pri.manchester.sch.uk/filteringrequest>

Monitoring

No filtering system can guarantee 100% protection against access to unsuitable sites. The school will therefore monitor the activities of users on the school network and on school equipment as indicated in the School E-Safety Policy and the Acceptable Use Agreement.

Audit / Reporting

Logs of filtering change controls and of filtering incidents will be made available to:

- the second responsible person
- E-Safety Group
- E-Safety Governor / Governors committee
- External Filtering provider / Local Authority / Police on request

The filtering policy will be reviewed in the response to the evidence provided by the audit logs of the suitability of the current provision.

Prevent Duty for Schools

All Staff will receive training on particular online safeguarding issues including Preventing Violent Extremism. Schools and settings should be mindful of the specific responsibilities and requirements placed upon them under the Prevent Duty.

School Policy Template - E-Safety Committee Terms of Reference

1. PURPOSE

To provide a consultative group that has wide representation from the [school] community, with responsibility for issues regarding e-safety and the monitoring the e-safety policy including the impact of initiatives.

2. MEMBERSHIP

2.1 The e-safety committee will seek to include representation from all stakeholders.

The composition of the group should include

- SLT member/s
- Child Protection/Safeguarding officer
- Teaching staff member
- Support staff member
- E-safety coordinator (not Computing coordinator by default)
- Governor
- Parent / Carer
- ICT Technical Support staff (where possible)
- Community users (where appropriate)
- School Council

2.2 Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.

2.3 Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.

2.4 Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature

2.5 When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

3. CHAIRPERSON

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying committee members;
- Inviting other people to attend meetings when required by the committee;
- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome;
- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary

4. DURATION OF MEETINGS

Meetings shall be held annually for a period of 1 hour. A special or extraordinary meeting may be called when and if deemed necessary.

5. FUNCTIONS

These are to assist the E-safety Co-ordinator (or other relevant person) with the following to keep up to date with new developments in the area of e-safety:

- To keep up to date with new developments in the area of e-safety
- To (at least) annually review and develop the e-safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the e-safety policy
- To monitor the log of reported e-safety incidents (anonymous) to inform future areas of teaching / learning / training.
- To co-ordinate consultation with the whole school community to ensure stakeholders are up to date with information, training and/or developments in the area of e-safety. This could be carried out through[add/delete as relevant]:
 - Staff meetings
 - Student / pupil forums (for advice and feedback)
 - Governors meetings
 - Surveys/questionnaires for pupils, parents / carers and staff
 - Parents evenings
 - Website/Newsletters
 - E-safety events
 - Internet Safety Day (annually held on the second Tuesday in February)
 - Other methods
- To ensure that monitoring is carried out of Internet sites used across the school
- To monitor filtering / change control logs (e.g. requests for blocking / unblocking sites).
- To monitor the safe use of data across the [school]
- To monitor incidents involving cyberbullying for staff and pupils

6. AMENDMENTS

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority

The above Terms of Reference for All Saints C of E Primary School have been agreed.

Signed by (SLT):

Mrs Lorraine Tennant
(Head Teacher)

Mr Spencer Keogh
(Deputy Head)

Mr John Sharp
(Deputy Head)

Date:

Date for review:

Legislation

Schools should be aware of the legislative framework under which this E-Safety Policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an e safety issue or situation.

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- “Eavesdrop” on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Data Protection Act 1998

This protects the rights and privacy of individual’s data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully.

The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject’s rights.
- Secure.
- Not transferred to other countries without adequate protection.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
 - Ascertain whether the communication is business or personal;
 - Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. youtube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is a anyone under the age of 18. Viewing an

indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

The new grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of "higher law", affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data. (see [template policy in these appendices and for DfE guidance - <http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>](#))

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent / carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

<http://www.education.gov.uk/schools/toolsandinitiatives/cuttingburdens/b0075738/reducing-bureaucracy/requirements/changestoschoolinformationregulations>

Glossary of terms

AUP	Acceptable Use Policy – see templates earlier in this document
CEOP	Child Exploitation and Online Protection Centre (part of UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes).
CPC	Child Protection Committee
CPD	Continuous Professional Development
CYPS	Children and Young Peoples Services (in Local Authorities)
FOSI	Family Online Safety Institute
EA	Education Authority
ES	Education Scotland
HWB	Health and Wellbeing
ICO	Information Commissioners Office
ICT	Information and Communications Technology
ICTMark	Quality standard for schools provided by NAACE
INSET	In Service Education and Training
IP address	The label that identifies each computer to other computers using the IP (internet protocol)
ISP	Internet Service Provider
ISPA	Internet Service Providers' Association
IWF	Internet Watch Foundation
LA	Local Authority
LAN	Local Area Network
MIS	Management Information System
NEN	National Education Network – works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain.
Ofcom	Office of Communications (Independent communications sector regulator)
SWGfL	South West Grid for Learning Trust – the Regional Broadband Consortium of SW Local Authorities – is the provider of broadband and other services for schools and other organisations in the SW
TUK	Think U Know – educational e-safety programmes for schools, young people and parents.
VLE	Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting,
WAP	Wireless Application Protocol
